Content Table

Executive summary

This report will offer a detailed description of those individual task deemed needed of further analysis. As stated in the Annexes document, not all tasks are worthy of such distinction; however, the most complex ones may need it to provide an extra clarification to the client and those stakeholders with limited knowledge on the specific matter.

We will follow a precise but accessible approach aiming to promote comprehension and assure a good final product.

Revision Table

Date	Version	Description of the changes	Sprint
16/02/2024	1.0	• Executive summary • Introduction • Content • Conclusion • Bibliography	1

Introduction

The first delivery comprises three tasks in total, with one categorized as mandatory and the remaining two as optional. The first task entails coding a small additional software feature, while the subsequent tasks involve writing reports, one of which is this very analysis report.

The document's structure will present for each delivery first the mandatory tasks followed by the optional ones. Each task will be identified by its numerical identifier, accompanied by its official description, and a comprehensive analysis, if deemed necessary, as stated in the Annexes document. However, for the first delivery, we have not found it necessary to further analyze any of the tasks.

Contents

Mandatory task D01-1:

"Modify the anonymous menu so that it shows an option that takes the browser to the home page of your favourite web site. The title must read as follows: "⟨id-number⟩: ⟨surname⟩, ⟨name⟩", where "⟨id-number⟩" denotes your DNI, NIE, or passport number, "⟨surname⟩" denotes your surname/s, and "⟨name⟩" denotes your name/s."

Due to its simplicity, it isn't deemed necessary to further analyse it.

Extra task D01-11:

"Produce an analysis report."

Due to its simplicity, it isn't deemed necessary to further analyse it.

Extra task D01-12:

"Produce a planning and progress report."

Due to its simplicity, it isn't deemed necessary to further analyse it.

Conclusions

For the delivery number one, we haven't deemed necessary any further explanation of any of the individual requirements. We haven't found conflicts, ambiguities or technical concepts which are hard to understand for stakeholders.

Bibliography

Intentionally blank.
